Jeffrey,

I spoke with Associated Air Center in Dallas Tx,. Patricio Altuna,.

Associated Air Center has completed 24 Green BBJ interiors, and 12 refurbishment BBJ's. Several Boeing 767 wide-body's as well,.

Mr Altuna immediately knew the interior of the aircraft you are thinking. My first impression was positive, he was not trying to sell me a cabin management system, and mentioned to utilize as much of the existing hardware, switch panel, cabin management, seat frames and divans as possible. According to Patricio the 12 BBJ refurb's ranged in price from \$4M to \$10M,. The BBJ that elected for the \$10M refurb installed cabin management, New seat frames etc,. He mentioned Green completions are in the \$30M area.

Patricio would like a copy of the existing floor plan, and a Marked up wish list floor plan, in order to provide a real estimate, His first guess on price was \$5M for complete modernizing the interior, to include: minor floor plan change, office, all soft goods and re veneer wood and HD monitors entertainment.

should I fwd him the marked up floor plan you did with Eric ?

thank you

Larry
