Subject: NEURO.tv needs your help!
Date: Sun, 30 Nov 2014 19:34:39 +0000

Dear Mr. Epstein,

We have successfully launched our Kickstarter campaign for Season 2 of NEURO.tv, and also released Episode 14 with Prof. Greely from Stanford, and Episode 15 with Micah Allen from UCL Institute of Cognitive Neuroscience.

We thought we would check in since we have not yet heard back from you on our previous emails. Your generosity has already allowed us to make major changes to the way neuroscientists interact with the general public, and we need funding to continue making neuroscience available to the general public. We will respect your decision whether or not you decide to support us for Season 2, but it would be great to hear an answer from you so that we can move forward with our fundraising campaign and plan our finances for this year ahead.
