Hi Jeffrey,

Attached is the divan arms with the taper on the inside to mimic the image you provided. Would you prefer the cushions be tapered to follow the line of the end arm or leave straight?

The 38" bed will still overhang about 1.5" past the arms. Jay said there MAY be a possibility we can move the divan frame outboard an 1" +/- under the ledge (we would then trim the ledge) which will then allow the bed to sit flush with the arms.

remember the close out cushion over the hand rail will also eat into the bed

Good Morning Jeffrey,

Attached you will find 43" arms shown with a 38" bed. This would make the bed overhang 1.5"

Jeffrey,

Attached PDF.

Page 1 - existing divan dimensions for reference. The bottom cushion when berthed is 33".

Page 2 - 38" wide bed and 45.5" arms to window line. [Is this what you would like to see?](#)

Jeffrey

The follow up email I remember was in reference to the width of the Divan,,
Originally I had marked 9" for width, it was corrected to 6"
If memory serves me correct,.

Sent from my iPad

We are using the 39" off the window per image below.

Will revise with divan shown in berthing position aka bed.
