Fabric samples are scheduled to arrive at Palm Bch airport office at 8:30am tomorrow, Gulfstream had issues with the Part number for the Display controller, the Part number installed in the GIV didn't match the Parts catalog from Gulfstream,, the part they received didn't work, Pete came through for us, he located a log boom entry from 1991 that showed this part number being allowed to be installed due to an Upgrade of the autoPilot,, Gulfstream had the part in Savannah and is scheduled to arrive in PBI at 8am as well tomorrow,, simple install.

If it's ok with you,, can we plan on wheels up at 10am?

I've fueled the plane already, just need the part installed, complete functional check and finish the log book entry,,

I'll taxi the plane to Atlantic when it's completed,

Can we plan 10am? Or earlier if the plane is done?

Thx  
Larry
