Subject: Fwd: Concrete Supply to LSJE

Date: Fri, 17 Aug 2018 19:11:05 +0000

Attachments: LSJE_Projects_Concrete_Supply_Proposal.pdf

Attached is proposal which Kyle, Daphne and I just reviewed with Marian for GSJ Heli Pad pour. Price for 100 yard pour (100 foot diameter = 97 yards) was \$21,349 which did not include laborers and framing materials, mesh wire, rebar, etc. Marian will provide those numbers later this afternoon.

Kyle informs me that Jules will need 1 week to prep grading of the site which with your permission we would have done next week. Tentative days to pour concrete would be Thursday August 30th and Friday August 31st leaving 2-3 days to lay forms and electrical conduit before the pour.

Please advise if diameter of helipad is 90 feet or 100 feet and timing for everything is ok. (90 foot diameter would be 79-80 yards)

Thank you

Also in quote below is info on Redi Rock if you have any interest..

Rich and Daphne:

Thank you for the time taken to discuss ORTALIS Concrete and how we may be able to support your projects on the islands. I have given you a broad view of the company in this attachment, and an endearing deal to win your business

for this pour contemplated on the upcoming week. I trust that you will see how valuable a relationship this can be for both us as we seek growth opportunities that showcase our talents and products and for you as you require quality concrete and development support services.

Please let me know if you wish to discuss further or to order concrete.

Most Sincerely,

Marian P. Prescod, PMP, CGMS
