Jeffrey

Pete is still having an issue with the R/H battery switch not coming on line, he changed the switch, no change, Gulfstream Tech support is leading Pete in the troubleshooting, still in works,

I'm planning to fly to Teterboro early tomorrow to assist,. In case we have to take the plane to Westfield,,, most likely i'll try to have the Gulfstream Fastteam come to Teterboro to troubleshoot the Battery relay,.

I'll keep you updated,

Thx

Larry
