Hi [REDACTED],

Thank you for updates. I know one of the building employees came this morning to do winterizing again but my concern is that this is not going to address the core issue. Wintenzing of my AC unit has been already done back in November by Cesar. It was the first thing I asked to do when I started having this issue but than I realized this is wasn't a single problem.

The main problem is that the warmth from the heating system barely escapes and enters in my apartment, with which I wanted to follow up.

Best,

[REDACTED]

Hi [REDACTED], thanks again for your help!

Hi Andrew and Anthony,

Thank you very much for your coordination in addressing the heating issue.

Could you please kindly update us from yesterday what exactly is the issue with the heating system in my apartment?

As of this morning, it still barely works. Cesar was at my apartment on Sunday and said that there is a need for additional lattice installation to let the heat to come through, is that correct?

Best,

[REDACTED]
