[REDACTED]. As of now I've completed about 1,000 cases (most complete 200), published, conducted original research and tried my best to keep pushing the field.

I don't know what's next after this fellowship but I do want to continue in science and maybe even be a good role model for women with skills. Feel like [REDACTED] is a good home for at least another few years but I need some help.

In July I will be the [REDACTED], which is cool. Not sure I want to stay here forever but want a 3-5 year window to have backstopping and institutional support.

Would you two be willing to help me do this:

[REDACTED]

Term chairs and professorships are short-term gifts — made to support a faculty member for a specific number of years.

Type of position	Gift amount
Term chair	\$80,000/year for at least 3 years
	\$20,000/year for 3–5 years
Term professorship	

[REDACTED]

This is an \$80-100,000 commitment and would go to the [REDACTED]. It would be provide me with nothing except a title and a space to keep working (credibility). The university rules say That me and first degree relatives can't endow a professorship for me so I have to find non relatives.

Would still try to find my next rainbow and plan to do bigger things within 3 years. Hopefully faster.

What do you think? July 1.
