attached is time clock Jeanne and I were looking at..

<https://www.alliedtime.com/Web-Based-Multi-Biometric-Time-Clock-System-p/alliedtime-cb4000.htm>

Clock reads palm or face and is wifi based..
If internet goes down it can store 1000 entries on hard drive
Cost of clock is \$279 and monthly service fee is 24.95
No service contract so we can terminate if we do not like..

Should i send to Karen for review / purchase or explore other options..
Please advise
Thank you

Hi Rich,

Thanks for your inquiry; it was a pleasure to meet you by phone.

As discussed, for your need set we recommend the [CB4000](#)

Please notice the attached screen shots of some other reports per your request.

If you would like to set up a free software trial or if I can help in any way, then please let me know.

Best regards,

Sam Trivett
