mike i am not sure your statement below is accurate in response to my question of why do we need fuel so soon after last fill up on 11-20-2018
fuel readings below show what we still have 2000 gallons in fuel truck
additionally why are we storing fuel in truck if repair has not been done as i understand there is a leak between compartments 1 & 2
please advise
thank you

Good Afternoon Rich,
New prices tomorrow.
