Jeffrey,

I was going to call Leslie to share the content of this email however decided that it would be best to send to you.

I was made aware yesterday that there has been some news stories both in print and video that speak to something that was settled from years ago.

In seeing and hearing what the media has said about you is absolutely one of the worst examples of improper facts, inconsistent opinions and inaccurate details about you and the person that I have known for over 26 years.

As your Doctor, in those 26+ years that I have spent with you 100's of times over in my clinics in West Palm Beach, (where it all started),

Boynton Beach, Delray Beach and your residence countless times in Palm Beach for all these years, I got to know you very closely.

On a health level, a personal level, a business level, a social level and more.

In 26 years as your Doctor, I was always aware of your health, your lifestyle, your environment and more that few had access to.

I feel that I know you in a way that few if any do.

The fact is blatantly simple.

In that time period I have NEVER-EVER observed anything that was not "above-board".

100% professional, 100% correct, 100% appropriate on every single level.

Quite the opposite as to how the media is portraying you.

The Jeffrey Epstein that I know is beyond reproach.

A reflection of the absolute highest morals and ethics.

A person who has given out of abundance to individuals, groups, communities and more and at the same time asked for nothing in return.

A person that has never violated trust.

Never, ever.

A person that strives to make those around him better than before

A person who has shown nothing but respect to all fortunate enough to know you.

You may question as to even why I am sending this to you.

The answer is simple.

No one likes a bully.

Maybe it's a Brooklyn thing.

It is obvious that you are being bullied.

Sometimes it may be hard to defend against a bully alone.

Not fair, not just, not right.

I am not a judge nor a jury.

I simply state facts.

The fact is that they are so wrong about the person you are, the character you are, the individual that you are.

A person that is protective, giving, loving, helping, sharing and more.

You've treated everyone around you on the highest level for so long.

As your Doctor, my responsibility to you was to ask questions, give medical opinion, medical treatment and have a heightened sense of awareness in all things that can adversely affect your health.

Environment has always been a key factor.

Your environment at all times was always open and on display for all those there.

Your dealings with all those around you at all times I was with you in 26 years was truly the epitome of harmony and peace.

I know that there are countless individuals who would agree with that.

Please let me know if there is anything that I can do.

As an expert witness, a fact witness, a character witness and more.

I unequivocally can share the truth, the whole truth and nothing but the truth.

I will take a polygraph test, sign an affidavit, give a deposition and more stating the 100% truth that you are everything that I have shared about you in this email.

At the end of the day the issue of credibility is of the utmost importance.

As a Physician, I put mine out in full display as I welcome the chance to let any party of interest know the Jeffrey Epstein that I know.

I know if roles were reversed, you would have done the same for me without thinking twice.

Case closed.

Dr. B

P.S. If there is anyone ever that even remotely questions as to why I feel the need to defend you with the facts, the answer is easy.

I've never taken a dollar from you. Our doctor-patient relationship never changed. The reason was simple. As my patient I have always had an obligation to you.

In 1992 you knocked on my door as I left the clinic late at night.

You wanted to be treated and I said I have to leave and told you to come back the next day.

You did and because I had to leave in a hurry, I felt that

#1-You needed the care and

#2-I wanted to do the right thing.

I always did that regardless of who my patients were and donated a percentage of my care to so many for the 32 years I've been in practice.

You did try to thank me years later with your gift of a Palm Pilot.

You were so excited when it came out and wanted to share the new technology in 1997.

You also had a pair of shoes sent to my office in 1995 after I checked your leg length discrepancy relative to your spinal condition

as I commented on them.

I must share something with you that I never told you. I never wore them.

I returned them to Saks 5thAve. for a pair of shorts.

I have 26+ years with you of experiences, memories, care and treatments.

100% nothing but right.

Anything I can do to share the facts.....
