catastrophic engine failures are rare , did it have oil?

On Wed, Nov 14, 2018 at 9:06 AM Carlos Rodriguez <[REDACTED]> wrote:

Greetings all, yesterday afternoon Little C's port engine had a malfunction this morning offshore marine came and diagnosed the motor. There was a catastrophic failure internally, the engine seized up. Offshore can install a new one on Monday, estimate is being worked on. I have on standby Capt Chris on ocean dream ferry, his rate is 450 a trip, so 900 per day, this being because his boat holds 100 pax. As of now we have captain Frederiks but he is only available in the am. All other ferries are under contract with hotels and BVI as they lost many ferries during hurricanes last year. Please advise.
Thankyou
Carlos
