Good day Sir,

I was unable to make it to GSJ today to take photos for two reasons. The first being that it appears that a storm in near the horizon and as a result causing heavy rainfalls, lightening and thunders. Secondly, it appears that Little C is down with a blown engine and is unable to operate on schedule. However, this leaves only barge to be operational.

Moreover, I will be sending photos as of today on LSJ.

Thanks for your understanding.

Regards,
Cashkim.
