Yay! Thanks for your reply, Megan -

I'm working on the Spring Quarter General Elective proposal inspired by Professors White & Fink: working title = The Art & Science of Music. From Bach to The Beatles and Beyond(ce). Looking forward to all your comments and edits on that one....

Cheers,
Mark

Hi Mark,

Good timing- I was going to email everyone this afternoon with the update. It appears as of this morning that the course is at its final step which is at the Registrar Publication. So almost official, but not quite. I am checking a couple times a day so as soon as it is officially approved, I will let you all know.

Thank you,
Megan
