Dear John,

It was truly an honor to sit next to you at a piano and have the opportunity to interview you for Stewart's documentary - I am not worthy! Please accept my apologies for the delay in writing this email - I've been a bit under the weather, and two weeks goes by too too fast!

Where are you presently? I recall you were headed to Japan to perform. I hope all is going well as usual.

I will follow-up shortly with links to a triad of original songs, one new, one recent, and one old - though I hesitate to subject you to any of them given my inferior performances when compared with yours, your colleagues', and, of course, your mentor and my favorite Beatlemaniac, Leonard Bernstein.

Warmly,  
Mark
