Good morning Daphne,

We had more long conversations yesterday in our meeting about how we can accommodate you, but it seems that we are just so slammed and nothing is moving to give us any room, so unfortunately we will not be able to send anyone your way – as much as we (and the boys) would have loved a trip to the islands.

As discussed the planting of the 4 zahidies is easier than the coconuts so I am sure that you guys are very talented in planting, as I see hundreds of coconuts in the google earth.]

I have included all the necessary info to help make your planting successful.

Please have the installer call me if they have any questions.

Melissa

Greetings Melissa,

Don't forget to send your proposal and list of requirements for the site visit - no pressure :)

Kind regards, Daphne
