separate and apart from the big transaction that he decided not to pay on . the phaidon transaction which i proposed. was in all our communications , to be paid at 50 percent of his savings. I told him , as i thought his settlement would be fair , no worry phaidon you should do , no need to pay on it. that was for the first part. . In our meeting in his office. he said that i had a point with respect to phaidon and he would reconsider what was done and he said to me " you have a valid point on phaidon " let me think about it. I said I thought that if he did the other half there would be no quesiton as it hasnt even happened yet. all the while he as telling me it couldnt be done. . and I said he was wrong it could. He filed his return two weeks ago with the second half done. he also saved 10 million tax on the giacometti, , the subject of what he calls the loan which was only structured to move basis . My thiinking is that he owes a min of 20 million. i am holding roughly 16. . In addition my thoughts are that if guzel needs a guarantee , he can use payments to me so that his office is kept unaware. . but as you and I discussed . not easy to get him focused. thanx
