when I asked to appeal his and OEI's findings:

"With respect to your request below and your email communications of August 29 and 30, 2018, the University will not re-open the OEI investigation. OEI completed its investigation and submitted its reports to me and I have rendered my determinations. The process under ACD 401 is completed. The dean has now acted on the outcome of that process by initiating a new administrative process. The items that you have raised in your recent correspondence can be considered in the conciliation process and, if necessary, in the administrative hearing on the recommendation of dismissal. "

If they battle this, I pull this out.. hang them on their own petard.

your concerns have convinced me I am right.. sending out the original in 5 min.
