---

Attached Sketch F for your refrence  
There seems to some confusion regarding this section of road  
I remember Rich asking me if the Road to Well 4 was necessary.  
I thought he meant all the Way to Well 4, not just between the two storied house and yellow house, my mistake.

I do recommend this section of paving is performed.  
This section of road is used daily for the checking and reading of Wells and meters. on a weekly schedule .  
My concern is the Deterioation of the surface/edge of the main access road at the turn point from unpaved to paved road surface

can they proceed with this section of road, (sketch F)

Brice

Good morning Brice,  
Yes, that's correct. Mr. Kahn removed the road to the well house ( Sketch "F" ) on August 8. Please see attached.  
Thank you,

Morning Gilbert

Steve informed me that your crew indicated the road between the two stored house and the yellow house and garage area is not going to be paved, (Attached Sketch F of proposal)  
please advise if this is your understanding?

Regards
