Jeffrey

Gary informs that Ben's buyer Tony Robbin's canceled his contract with Ben,,,

I received this from Ben yesterday;

Thanks for the feedback and kind words, much appreciated!

I checked with our team this morning and we feel the galley mods and options your looking for including the fuel mitigation and cabin alt mod all together should cost right under 1,0 to complete.

For an aircraft of this size and cost that's not a big number.

Let me know if you want more details.

Thanks !
