Tell your friend that your lawyer wants to sue the university for damages. and maybe the univeristy will need to notify their insurance carrier. . A meaningful insurance settlement however might go a long way towards an amicale resolution. !!!!

EDITED VERSION BELOW

University Statement on Professor Krauss following 6 month long Investigations by the Office of Equity and Inclusion, .iation Committee with Professor Krauss

Professor Krauss has been a valued member of the University Community for the past decade. As Director of Origins, he created a unique program that brought world class scientists, scholars, and celebrities to ASU to share their insights, create new research programs and excited and educate the public about foundational questions of great relevance for dealing with the challenges of the 21st century. As a Professor he helped build and create an outstanding research program in Cosmology at ASU, and his classes at Barrett honors college has received rave reviews. Through his many efforts at public outreach, he has inspired individuals around the world to better appreciate the world around them. Following complaints originating with BuzzFeed magazine in February of this year, investigation the University has not substantiated any violations of University policy at ASU warranting dismissal or further sanctions against Professor Krauss. No complaints have been raised against Professor Krauss by any students, researchers, or faculty that he has worked with at his time at ASU, or by any of the many participants in his Origins Project events over the past decade. I For these reasons, Professor Krauss' period of administrative leave is thus lifted effective immediately. The University has

fulfilled all its legal obligations to investigate allegations of misconduct. The university continues to take all allegations seriously. BLAHBLAH. However, Professor Krauss has decided that the press surrounding the allegations has caused concerns among various members of the public and the University community that he believes will make it difficult for him to effectively continue with all of his teaching and research activities as a Professor at ASU. Professor Krauss and the University have therefore agreed that he will spend the next few years doing research or (he will be taking a multi-year sabbatical) or making speeches and writing an ASU sponsored book. He will at the end of this period gain emeritus status at ASU. We both feel that the process was fair and we thank Dr. Krauss for his understanding and acknowledge the difficulty the process has caused in his moving forward here.

Lawrence M. Krauss
