well.. I expect the committee report to be done today and to receive a copy of it, presumably in the next day or so.. then I am hoping that next week will be negotiation week. I did let Justin know meeting today was cancelled, and why, and I told him I didn't feel I needed him for negotiations.. He said if they had a lawyer present, then he thought he should be present, but if not, he agreed no need for him.. I will ask to negotiate details with chief parties.. I.e. provost and/or president.. and then if we need a lawyer to draw up legal document we can use him or a lawyer you might know.

Hi.. Just spoke to my Hollywood man, David Unger, and he is extremely excited about the Strange Bedfellows project (again outline below with a little more detail and more names), and he has said there is great interest from a few people in Hollywood, and agrees that it is perfect for Netflix or Amazon.. (and I have another individual who is willing to throw money in for it). David is aware of ASU issues, and he has said that if that gets resolved, and we can get the statement I hope to get, we should be good to go.. So, I thought I would tell you as it is another reason to try and negotiate a good deal to exit ASU.. David thinks this is a great segue away from ASU, and I think it could be too.. and then supplemented by more serious writing, and maybe building something else..

p.s. Jeffrey, thanks for everything. Nancy and I were just saying last night that if it hadn't been for you, we would have felt alone and unaided during all of this.
