spent real time with the divan. 1. the arms need to be softer. i think the original height was to be 33 in , it is only 31. good news. no back cushion needed at all. . we will use only pillows. thin fat . 24 inch. square. rectangle for sides. and small to fill in gaps ITS GREAT!!! very funny, it is the most comfortable divan on any plane organized that way.

2 we will need to make another foot rest. 20 inches wide this time and then they will both fit perfectly in the carry on space. 3.
