RE Penelope Moon:

1. Did you report Penelope moon for violating University policy for Failure to Report when she informed you that 8 years earlier she claimed to have learned that an employee was propositioned during a job interview?
2. If not, why not? Was it because she wasn't certain that that happened? If that was the case, why was this raised as an allegation against Dr. Krauss. Is it because the statement she thought she heard was not a request for assistance? If that is the case, why is Dr. Krauss being accused of Failure to Report when an employee related a story without requesting assistance?
