Subject: Cabana's Phones and Wifi
Date: Tue, 18 Sep 2018 18:09:05 +0000

Good Day All

FYI:
New IT Task

JE has requested that WIFI and Phones be made ready in the cabanas. I will accompany VIYA tomorrow morning for the data side of the underwater fiber and meet with mike to review the fiber runs. I will then begin on the cabanas once finished.

I am understanding the floors are to change so I will make sure the Wifi and the phone jacks are live but I will not install the phones until the furniture is installed (the Wifi will be active).

When the refinishing of the floors begins let me know if there will be any sanding, so I can remove the access points in advance.

Regards
Juan
