I just want us to be done forever. I think what happened is we resolved the dock back in 2009, and somehow the resolution got filed else where, its stupid to permit it again, but if he is offering this as the fastest resolution lets do it. I want to include a note that there is a shade structure so we won't have them come back again and say that its not permitted. If that is okay then I'll make a small change on the application from.

Do you want Erika to sign, I could ask her to do it today and we can get this all in and done.

We agreed we would do an as-built of dock and permit it just like it is to resolve all outstanding issues.

The dock was one of the compliance issues I really want it all settled so we can move forward. Was the shade structure ever permitted by ACE?
