I have tried to say as little as possible on the LSJ issue. Jonathon has not told us how he wants us to resolve the shoreline change. In looking into more depth on the dock, I believe that there may be some confusion. The dock and the pilings were resolved years ago. And there was also a subsequent issue we resolved with the jetty ski dock. I believe the issue may have related to the shade structure rather than the whole dock.

Again this has Erika name on it to do you want me to change that. I can send this in as soon as I have signatures.
