I didn't forget you I was just stuck in the refinery until late last night. The governor and everyone is pushing for the reopening as you well know.... election season!!!

Here is the GSJ revised EAR and the request to keep the Christmas Cove ramp until we get the new on and how we remediated the impacts.

The revised form needs to be signed. Do you still want Erika to sign it? If not you can change the form, its fillable. As soon as it is signed I can send to Jonathon.

LSJ will come right after this due to size.
