Dear Mr. Epstein,

Thank you so much for your interest in One Drop. I have attached an overview of the foundation with all the key information on our current water access projects and our approach.

We currently have 13 projects in 11 countries on 3 continents; Latin America, Africa and Asia (India) and I am proud to say we will have reached 1,300,000 people once ongoing projects are completed.

Our collaborative business model focuses on creating impact at scale; partnering with local governments, development banks and agencies enable us to leverage our funding to an average of 1:10.

You may also know that One Drop's Project Odisha has been awarded by United Nations Water in 2015 for Best Practices.

I'll be happy to pursue our discussion at your best convenience.

Best regards,
