Subject: Gun Safe & Inventory

Good Evening Everyone!

I just wanted to give everyone a run down of what I have done with the Gun Safe and its contents. Cynthia and I looked at each gun and compared serial numbers and photos to what was already documented in the Inventory List. Included in the attachment with this email will be another copy of the Inventory List which will have the guns we found crossed out and checked marked. We took additional photos of the guns with the serial numbers, make & model if it was available (reference the existing Inventory List). According to what guns are accounted for to what is on the list, we are missing 33 guns. photos were also taken of Ammo, 9mm magazines, a decorative revolver and soft case, a ammo reloader and a what looks to be a magazine to some sort of gun but not sure which type, multiple shooting targets, gun cleaning materials that were located on the top shelf of the safe. A bag with a variety of ammo, a cleaning kit, a sharpie pen and a manicure set which I know came from the lodge was found by Steve and Carlos yesterday when they followed the tire tracks away from Larry's. The bag was not touched by the guys until they were given permission by Officer Burd of the State Police. Officer Burd took a photo of this bag and its contents as did I and will also be attached to this email. All of the guns and other contents have been put back into the safe and locked. Tomorrow the safe will be placed in the garages located at Ranch Central until further direction is given.

New Mexico Locking Systems is the company that came out to the Ranch to open the safe and also repaired it. The breakdown of their services will be attached to the receipt that should be forwarded to Steve via email.

I hope everyone enjoys the rest of their evening.

Sin,

[REDACTED]
