This is helpful. Thank you.

Can one of you help me understand the roles of each person in the office as it relates to the island? My understanding is that they exist to provide administrative support (accounts payable, payroll, shipping, resourcing supplies and contractors, scheduling, resource for information). I still handle quite a lot of the administration. If you can help me better understand each person's lane, I can better understand to whom I should reach out when I have a question or need support. I am certain I do not have the full breadth of what they do there or how their work relates to the island. Can you help me understand this?
