Good morning, Sir,

Summary of correspondence below: Countertop for FP Pool kitchen was damaged when trying to move it w our heavy equipment yesterday. Kenny says will be at least another month before new top can be here and ready. Should we 1.) proceed with new order w Kenny, or 2.) find an alternative countertop supplier for the FPPool. In the interim we can have the carpenters install the temporary wooden countertop they had already crafted if this is okay. Please advise.

Thank you,
Stephanie

I am sorry to report than while attempting with our CAT to move the rack with the large counter top for the FPPool kitchen to a location where it could be retrieved by the lull, the piece was damaged. Kenny will order a replacement part ASAP but he said it will be at least a month before it is ready for install.

Old countertops removed. New countertops in progress. They worked Saturday. Took some tops home to work on over the weekend. Haven't seen them since because they were working in their shop. Should be on the 9 o'clock barge this morning. I'll ask Cashkim to take photos periodically when he is here as well to help keep you up to date. Photos attached.

Should I come over to LSJ today to check on Kenny? Someone need to keep Rich & Bossman updated on Kenny with Photos. Please speak with Kenny. He would like to work this weekend to be completed by Monday.

At the moment it's just GSJ main roads & the step strips. Both projects should be 100% completed by tomorrow.
