Jeffrey

i was most pleased to read the following

"I am now admitting that I was wrong and that the things I said to try to harm Mr. Edwards's reputation as a trial lawyer were false. I sincerely apologise for the false and hurtful allegations I made and hope some forgiveness for my acknowledgement of wrongdoing.

The key is that you 'apologised'—and even asked for some forgiveness. Very strong and with the integrity that first drew me to you.

Did i ever tell you what Huey Newton taught me? That in prison, the expression was "sorry is a sorry word". So if you stub your toe, i can express sorrow but that in no way takes responsibility for it. Same thing for my misbehaviour.

Huey BTW was 1/4 Jewish genetically. He also never believed in random retaliatory violence. Yes execute white racist police who had executed innocent black men late at night. But do not execute two cops sitting in a car in Brooklyn (one white, one Asian) because of what happened in St Louis and Chicago.

So when he met Yassir Arafat he said, why do you blow up buses or kill Olympic teams and he answered "because it is the only weapon i have". And Huey said, well then o.k i guess

hope all is well with you, glad the market bounced back, all is fine with me, i travel to North Carolina to lecture and the NYC for work and family (March 4–14).

bob
