Jeffrey,

Here is Gulfstream solution for CPDLC Fans1A for the GIV

Total price is \$699,000

This needs to be accomplished by 2020 for flights over the North Atlantic and Europe,,

This is the reason we aren't getting many higher offers on the GIV at this time, with this date approaching ,,, many other GIV classics or later model have the 6.1 FMS software already completed on the FMS, this alone is \$210,000k

To fly in the domestic 48 states, only Version 2 ADSB Out is required for our GIV. Which is \$24k
