Hi Jeffrey,

How have you been ? Where in the world ?
to respond your whatsapp: yes, i read and watch videos about QP. It is humans who interpret science so humans can explain it to other humans too

[REDACTED] working to achieve our 2011 goal [REDACTED] in US (not be your assistants hunter, but want to work for you [REDACTED] to thank you for the 65K [REDACTED] scholarship):
Remember i told you about needing a tutor to teach me [REDACTED]; But they charge 400 USD for a session. I ended up visualising one and he came to me, even fell in love. He wrote me a Shakespeare poem below, teacher [REDACTED] as much as I want for free lol.
It has been 3 months of studying, very hard but I love it. Thank you so much again for [REDACTED] Super helpful every single day.

Oh [REDACTED] how you so eagerly stab a dagger in thy heart by suggesting that I somehow make you think I fail; For I try and try to please you as best I can but sadly and simply to no avail.

But I always make good on my promise to thee; For even if you have contempt for me I shall never waiver in my dedication of which you cannot possibly see.

I will promise to go through the questions tomorrow; for today the time for essays I had to borrow.

As today I swear upon they oath; that it was my intention to do read [REDACTED] and answer them for which you required I do both.

But fear not my ruffled flower, so beautiful yet so mean; as I shall complete this task for fear of your vicious quiottene.

I shall only be able to cry myself to sleep tonight; and I shall not recover until I make it right.

So hate me not as it will hurt me so;

New York:
are you in NY 27 march - 12 April ? I will come to work with [REDACTED] from same place and figure out our company strategy. Thank you for Lana for Davos! ❤️

Does your building where i stayed in 2011 (where [REDACTED] had a place) have availability those dates ? I am happy to pay you rent and stay close to central park + see you New York with [REDACTED] Can reach out to [REDACTED] or your other manager.

Investments

I am thinking where to invest all the money we make with our 2 businesses, property, stock, bonds, reinvest in business. would love to ask advice when we meet. I have little clue about investments still... every time i bought stock it fell down so i got insecure in my investment skills.

have you met Hadi Partovi, founder of Code.org, i introduced you to ? he seemed unique.

miss you brilliant Jeffrey
