its ok. you will have laid out your position. she will likely not say yes, but cannot help but think about it. short term experiment. dont push hard. fall back to think about it, even if she says i dont need to, i already know the answer, she wil think about it. / you will give her full time mentorship. before your dinner, why not walk into prada and buy a 2500 dollar handbag. no need to open it at the table.

She will say no. She has a concept of monogamy where that precludes finding her life companion and mixes her up.

A rational person would either say yes or want to detach.

secure to her is a dynamic concept. you are to be there ALWAYS in spirit if not in body. think about a religious persons view of god. he/she is there in good times bad times etc. can talk to, without getting an answer. is protective though illusionary. I suggest you propose an experiment. lets have this arrangement I will be there every day you need me to be text, phone etc. I will be diligent and reliable. we see each other times per month, go on vacation, once every... and do our best to enjou each other, at the end of the year we look back to see if it should continue be modified or die. bayesian. :)

I call this the Martin Luther king approach—making up a dream

It allows raising sensitive subjects while blaming one s subconscious.

What does she mean by secure? Financial? Mentored? Companionship? safety. Net? Shoulder to cry on?
