i don't know whether the proper term is withdrew, changed his orientation or whatever

what was clear was that after March 28—the day of the debacle at Chapman—our relationship changed and then later more sharply

i blamed myself for not guarding myself at Chapman against the malicious behaviour of a male "friend" with whom i had had a sharp argument

i blamed myself for later acting as if you might be part of the cause

[REDACTED]

i want to make it clear to you

you have supported me **most generously** over the years

i have recently revised the facts

2011 25 grand COUG

2013–2017 between 20 and 30 grand a year ELF

with the exception of 2016 when it was 40,000 because you slapped a 10,000 "late fee" on yourself for forgetting to send 30 grand, as promised early in January

another example of your extreme generosity—you called me once when i was waiting outside a CUNY building waiting for an interview for a possible job—when you heard that, you said, if it comes up and would be useful tell them you have a friend who will donate 100 grand to them, 80 to be put in a research fund under my control

well they had no job worth discussing and later i asked if i could use the same ploy should a University have a plausible job—yes, you said—but that did not happen until Chapman, where the President was most eager to make contact with you

one last example, i was waiting in some line in a Walmart when you called and inter alia asked what i was up to and when i said something about wiring money to cover research you asked if could use some money and then promptly sent some funds

going over my calendar for 2017 i see a meeting in NYC on January 11—ten days earlier you said, you don't need to meet with me to get support, just tell me you need some—i said, many thanks, but i enjoy seeing you if you have the time, so we had a typical meeting on the 11th, 12:25 at your Central Park home, pleasant lunch with a glass of wine for me though you do not drink, always a woman or two present, 25+, and your driver taking me straight to Penn Station

the second meeting was on December 28th in Palm Beach, one of the most pleasant with anyone ever—i asked you why you liked white women, when you asked me about black, and we both laughed, you explained 'Bella Russians", i told you about "two pants Trivers", you jumped up and within a day sent me a video from the '20's of someone selling a two pants suit, to a comedian who resented the high price etc

i could give you other examples of your extreme generosity but let me just summarise by saying **you have been of enormous benefit to me in my life**

when you once said, perhaps in Palm Beach, that there would never be a time when you would not support me, i joked to friends this was better than social security—tax free and you invested your money more wisely than did the US government, so they might go under but you never would

the point to me is that i enjoy you as an organism, a very bright and far-ranging mind, with personal integrity

all good wishes

with every good wish, as always
