Subject: Join Us for the Final Event in Our Innovation in Health Care Series - March 27th

Date: Tue, 12 Mar 2019 15:31:29 +0000

 Innovations in Health Care

This past fall the **Mount Sinai Health System** launched a private event series featuring President and CEO **Kenneth L. Davis, MD** that includes discussions with international thought leaders, renowned scientists, and top physicians across disciplines. Originally presented at the **Aspen Ideas Festival**, this dynamic content will bring you to the front lines of stunning scientific discoveries and provide insights into medical advancements significant to you, your family, and your community.

We hope you can join us for the final event in our series.

**Beyond the Hospital Bed:
New Models of Health Care Delivery**

Featuring Jeremy Boal, MD • Niyum Gandhi • Prabhjot Singh, MD, PhD

**Wednesday, March 27, 2019 | 6:30 - 8:00 PM
Crosby Street Hotel | 79 Crosby Street | New York City**

Our current health care system is bankrupting the nation. It's time to move toward a new model of health care delivery: one that is not centered on hospital beds and medical villages, but extends out into the community with a full network of physicians and medical offices. With comprehensive care through an integrated health system, we can imagine a world of healthy people who never need to set foot in a hospital.
