 ForeFlight Intelligent Apps  
for Pilots

## Customer Notice

Dear Customer,

Compatibility testing between iOS 12.2 and ForeFlight is complete and we are issuing the “all-clear” to ForeFlight customers. Feel free to update to iOS 12.2 at your convenience. Stay tuned to our [company news](#), [Facebook page](#), or [Twitter feed](#) for announcements regarding future updates.

We also finished testing ForeFlight on Apple’s new [iPad Mini 5](#), which looks and performs excellently thanks to its new Retina display with True Tone and A12 Bionic chip.

Follow [this link](#) to learn how you can check which Apple iOS version you are currently running, and follow [this link](#) to learn how you can update your iOS version.
