With regard to shipments that arrive during the 3 week window that our barge will be out of service, I will utilize Bubbla or any other means by which to get the job done. The dates are set for the barge with the yard and the Florida based muffler installer along with being penciled in for the pull out by the marina. We just need to provide the ins. and reg. info and pay the fee to the marina at this point. Daphne and I will coordinate as we have been doing to make things happen. Thank you.

Good morning Rich.

I would like to finalize the appointment for the marina to pull out the barge on the 22nd and send them the insurance info for the barge.

Also pay for the service.

Is it cool to send them the info?
