Greetings Ryan,

Thank you for the update. Whatever Ms. Dempsey needs should be completed and as soon as possible. That is the directive from our Principal.

Kind regards Daphne

Daphne,

After discussing the scope of work with Amy this morning we determined that the entire shoreline should be surveyed, not just the portion north of the dock. Therefore, we likely will need a bit more time today than anticipated. I do think we may still complete the field work today however.

Sincerely,

Ryan C. Wisheart, PLS

Daphne,

Cape air is messing with us this morning and we are still on St. Croix and just finally got service. I'll just wait and come over on Tuesday on my boat.
