Hi Jeffrey,

Rod Pennington and I's latest Fiction book, "What Ever Happened to Mr. MAJIC?" is available today! We both know that you will enjoy it a great deal!

You can grab your copy right away here: <https://www.amazon.com/dp/B07M6RGDGY>

As with The Fourth Awakening and our other books, its all about living from enlightenment, nonduality, unity consciousness, etc. (what we call "Fundamental Wellbeing") from multiple perspectives, all wrapped in a great fiction story.

Many years ago Rod correctly identified that non-fiction books and articles aren't enough to show people what its like to live from a place of fundamental and extraordinary wellbeing.

Fiction allows you to see through another person's eyes in a way nothing else does. It's been a great tool over the years to help people better understand these ways of being in the world, and what they are like.

The material is drawn from our 12+ years of scientific research on this topic. When you combine that with the talents of a world-class fiction writer like Rod, something special happens.

The last time we collaborated the result was the celebrated The Fourth Awakening book, and series, which was a #1 international best seller, and topped its area of the Amazon charts for 4+ years.

Here's more about the NEW book...!

**What Ever Happened to Mr. MAJIC?**

*On the day of her mother's funeral, twenty-three-year-old Grace Maxwell discovered the man who raised her was not her biological father. Instead, he was a best-selling self-help author and a world famous "Guru to the Stars." Known as Mr. MAJIC for the miraculous impact his books and seminars had on millions of people, he had inexplicitly vanished around the time Grace's mother became pregnant with her.*

*For over 20 years, the mystery of Mr. MAJIC's sudden and unexpected disappearance, and the speculation of what might have become of him, was the stuff of Urban Legend. The theories ranged from he was a homeless bum living under a bridge in the Bay Area to his most avid fans claiming he had attained divine enlightenment and had ascended straight to heaven. Even nearly a quarter of a century later, on the anniversary of his disappearance, there would be stories in the media asking what ever happened to Mr. MAJIC?*

*Among her mother's things, Grace discovered MAJIC's long missing and thought lost forever unpublished manuscript, "The True Path to Enlightenment." The manuscript was considered to be the Holy Grail of self-help books and was worth a king's ransom. The problem for Grace, before anyone would publish the book, she must prove the manuscript was not a fake. This was no small task, considering the only person who could provide the definitive confirmation hasn't been seen or heard from in over two decades. With the help of her fellow Generation Z sister and an old-school, hard-boiled detective that had made finding MAJIC his life's work, Grace goes on a quest to find the elusive Mr. MAJIC.*

*Along the way she meets her perfect soulmate and finds true inner-peace and a state of wellbeing she had previously thought unimaginable.*

*Wrapped inside this fast-paced romantic mystery, you will discover a simple to follow tutorial of how to identify and release the things that are making you miserable. You will gently be shown a simple step-by-step process that, if followed, can lead to Fundamental Wellbeing.*

Much Love,  
Jeffery
