Do you know how to book a Crowdfunded Flight?

Hi Jeff,

Maybe you have heard about JetSmarter's crowdfunded flights, but you may not know just how easy it is to create one or join one – risk free.

In fact, it takes just 4 Easy Steps:

Step 1.

Search the route you want to fly.

JetSmarter App

Step 2.

Initiate a crowdfunded flight or join an existing crowdfunded flight risk free.

JetSmarter App

Step 3.

Look for the “share” icon in your MyTrips section or on the Shuttles page and invite friends, family, colleagues via text, email, Facebook, and more.

JetSmarter App

Step 4.

Wait for others to join and once your flight is confirmed, only then will you be charged and you'll receive your itinerary.

JetSmarter App

You Risk Nothing!

You risk nothing by creating or joining a crowdfunded flight prior to confirmation. There is no obligation to create or join a flight, and it's free to cancel anytime up until confirmation.

When requesting the flight, we will simply place a \$1 credit card authorization to confirm you have a valid payment source on file. Your card will only be charged when the flight confirms.

So, what are you waiting for?

Join the party and experience private aviation the way it should be. Crowdfunding is still new, however, popular routes with a long enough window of opportunity prior to time and date of departure, are confirming a majority of the time.

At JetSmarter we are always finding ways to add value and improve your private flying experience.

If you have any questions or upcoming travel you would like us to look into, feel free to respond to this email with your details or call me on my direct line below.

Best,
Vlad Kaykov

Crowdfunded flights are non-refundable once confirmed. The number of required seats required to confirm a flight is dynamic and may vary depending on the number of days until the departure date. JetSmarter may offer a number of programs including whole aircraft charter, for which JetSmarter will act solely as your agent in arranging the flight, and Public Charters, for which JetSmarter will act as principal in buying and reselling the air transportation. JetSmarter does not own or operate any aircraft. All flights are performed by FAA-licensed and DOT-registered air carriers.
