Inflight Insight for Everyone On Board

[Passenger](#) is ForeFlight's free companion app that lets passengers connect to the pilot's device, follow along with the flight, and know when they can expect to arrive. Available on the App Store now, Passenger is free to download and requires no account setup. Let your travel companions know about Passenger before they join you on your next flight!

[ForeFlight 11.2](#) is also available now on the App Store, and includes Route Line in Profile View, the ability to hide airspace by altitude on the Aeronautical Map, expanded 3D View for anywhere on Earth, and more.
