Drawing on Left:

Your lavatory vanity. Red X's would be to delete upper section

Drawing on Right:

Yellow shows new valence panel and new windowline panel

"L" are relocating the existing lighting to create a downwash affect over windowline panel and a direct down light (through the horizontal section of the valence) to illuminate the sink / countertop.

Question: What would you do for a mirror then?

On truck – should be here by Friday.

Not having much luck today with G650 mirror.

Will have the new G650 rectangular sink here by Tuesday (I owe some redneck lunch next time I am bum-fuck Georgia).

Can fund tray carrier / dirty dish carrier. Working drawings to custom fabricate each using stainless steel (easy to clean, sanitary, very durable.
