Below Eric's comments on Wood repair for GIV.,

Also,, the radio Rack wood has several stress cracks,, ***what about installing a Framed "Map of the world" on Radio Rack wood to cover cracks, its the first thing you notice as you board the plane.,

From Eric;

We will have to make cover panels wrapped in ultraleather for the fwd and aft entryway bnulkheads.

We should fabricate a metal overlay for the chowed out piece on the cabin door and metal plate so it look like it belongs.

I would likely leave the radio rack panels as is. Whomever buys the aircraft is going to paint it and do some degree of interior cosmetics.

Best Regards,

Eric
