unfortunately information originally presented by Larry on 4/20/2017 was not accurate (see bottom of attached email chain) as larry inferred that Syn Vision 4,700 and CPDLC 7,300 were included in Flight Safety pricing larry is eager to get dave and bill started on training and securing slots

i am unaware if Simuflight includes these two additional costs and note that Simuflight is 40k for G550 initial yet recurrent for GIV is not clear (i have not spoken with vendor as larry is very firm on using flight safety) larry mentions that flight safety is more rigourous and fails people however when i spoke with gregg he said failing is rare and it would be hard to fail dave knowing he works on Larry's team

please advise if ok to proceed and with or without extras as per pricing below or shall i call simuflight to obtain an accurate picture of cost differential

Jeffrey asked me the difference between FSI FlightSafety and CAE Simuflite training, since its a \$20k difference between schools.

FSI is a more Regimented and Harder to pass a pilot with lower than average skills, FSI would not offer a Type Rating class to [REDACTED] due to her experience level. I've seen 3 pilots in my classes held back for more training, I've trained the past 10 years at FSI,. Dave attends CAE,. It's time for all of our pilots to be test properly. It's the difference between Harvard and a Community collage.

Here is what i come up with total training, pls advise if approved?

Definitions:

CPDLC = Contoller-Pilot Data Link Communication.

Syn Vision = Synthetic Vision.

HUD = Heads Up Display, included in G550 initial training.

EVS = Enhanced Vision System, Included in G550 initial training.

Hi Larry,

Full Service covers a few of the "nice to know" enrichments like cold weather ops, TAWS, CFIT, etc. and Full Service also gives discounts for many of the ancillary courses. However, the Two Event program is not Full Service and covers two specific events per pilot. That said, with the commitment you and Rich are making to FlightSafety for all three pilots, we may be able to provide the Full Service rates for the ancillary courses like Enhanced Nav and Synthetic Vision, etc.

Attached are fact sheets on Enhanced Nav, Synthetic Vision, XM Aviation Weather and CPDLC eLearning. Let me know if you wish to take any of these or other ancillary courses and I can include your special prices in the Agreement.

I'm available by phone [REDACTED] if [REDACTED] like to discuss.

Hi Mr. Richard,

Great to speak with you again yesterday and thank you for this opportunity to be of service.

I have discussed your counter proposal with our team and we are able to come very close to meeting your requests:

1. We are able to offer you a G550 Initial with Bell 430 Recurrent within 14 months for Larry at \$57,400 each
2. We are able to offer you G550 Initial with Gulfstream G-IV Recurrent within 14 months for your other two pilots at \$62,600 each
3. We will prepare a contract for all three pilots for your signature. Upon signing, we will create invoices for each pilot and ask that the three invoices be prepaid (\$182,600 total) before the first training session for the first pilot on the schedule.

Our G550 Initial course covers HUD and EVS. Please advise if the unit you have purchased has Enhanced Navigation, Synthetic Vision and/or XM Weather and we can get you pricing for those courses.

Lastly, we have at least three different accounts set up for your current airplanes and will need to consolidate the training for all three pilots onto one. When you are ready to move forward, please advise which account will be best for the scheduling, contract and billing and we will send you the Agreement for Training under that account to cover your special rates.

Please let me know if you have questions and if I can be of assistance in any way. We truly appreciate your business.

Greg

Hi Larry,

Great to hear that the G550 deal came through. We look forward to being of service for all your training needs.

As you know, we have several pricing options, including the Two Event/13 Month contract (2 sessions per pilot within 14 months). The Two Event program offers additional discounts off the One Time pricing by prepaying the two events at the start of the contract period. We can "mix" aircraft types under the Two Event pricing option as long as the training and contract is all with one account.

Listed below are your prices for 2017:

TWO EVENT

Gulfstream G550 Initial with Bell 430 Recurrent within 14 months - \$59,400 each pilot

Gulfstream G550 Initial with Gulfstream G-IV Recurrent within 14 months - \$64,500 each pilot

Please let me know if you have questions and if we can be of service in any way.

Yes Dave, Bill and I have completed Training in GIV in past 12 months,. Greg Williford is with Flight Safety, he didn't realize I trained with simuflite this past year

My plan was to send Dave Rodgers to Flight Safety for G550 initial,
I was planning to send Bill Hammond and myself to simuflight,. For cost savings,,
I told Jeffrey that Flight Safety has a more thorough flight training program that Dave would benefit from,.
Plus not everyone passes the course at FlightSafety much more stringent,.
If we want to save \$20,000 per person in training cost we all could attend Simuflite if you like?

Larry
Simuflite CAE GIV recurrent training March 2017,. Due GIV in March 2018.

Dave Rodgers
Simuflite CAE trained Aug 2016,. Is due for recurrent Aug 2017.,

William Hammond
Trained FlightSatfey
July 2016,. Is due for ReCurrent July 2017.,

All prices quoted from Simuflight or Flight Safety is considering 3 pilots for G550 initial class.

Simuflite Price is \$40k for G550 Initial class,.
Following year, re-Current training is \$25,750

Bell 430 item,

This was Flight Safety quote for me, which included the Bell 430 re-current and G550 initial, price is \$59,400 which is 550 initial and Bell 430 recurrent,. I would need a G550 recurrent the next year, which is an additional \$25k.,

"Flight Safety" in Dallas has start date May 1st G550 initial class. Ends May 23rd, which includes Check Ride, Advance Navigation course w/CPDLC, and Synthetic Vision class that includes Sim time using HUD "Heads Up Display" and EVS "Enhanced Vision System" ops in the Simulator.

Single time event is \$62,100 for Initial.

Dual event which covers 24 month is \$77,500

After Initial training, the following year Recurrent G550 training is \$25,700

Option

1-Do you want Dave to do Single event Initial for \$62,100

Or

2- the two year program which is G550 Initial and includes Next years Recurrent training total

\$77,500

Option 1 or 2 ?

Thx
Larry

Hi Larry,

Congrats on the pending purchase on the G550 and thanks for your email.

We'd like to amend the proposal we sent to you on February 3rd with the following special Two Event prices for 2017:

TWO EVENT AGREEMENT

Gulfstream G550 Initial with G550 Recurrent for the same pilot within 13 months - \$77,500 each pilot

Gulfstream G550 Initial with Bell 430 Recurrent for the same pilot within 13 months - \$59,400 each pilot

As discussed, we don't offer G-V with G550 differences and only offer G550 training in our G550 sims due to safety concerns based on discussions with GAC, our customer advisory boards and customers. The prices above will cover the "type specific" G550 and Bell 430 training.

Please let me and/or Woody know if you have any questions. We look forward to being of service.

All the best,
Greg
