---

I know again we have no choice but a 44k machine with 45k in parts and repairs in less than 2 years is rather upsetting for lack of care and skill by mechanics...

when the Lull arrived to LSJ it worked for a few months then things started to fall apart on it. They sold it at a great price because it was used and they knew that it was going to break down eventually. we changed all the hydraulic lines, all the control levers and a lot of other parts I mentioned that it was losing power months ago and eventually the transmission might go down since we changed everything I needed to change. I know it's an expensive part for a 2007 lull but once we get the transmission it should work really good since I already installed a lot of new parts that was needed

This is the 2007 Lull 1044C. We paid 44,500 on 10/05/15 for the machine from the company Machinery Maintenance. The current value of this machine from the websites Rock and Dirt and Machinery Trade are \$36,950 and \$45,000 respectively I have attached the links for you to review.

these number are ridiculous

please provide age of JLG, cost, current value, etc

how and why did transmission fail

not sure why we own any equipment as everything is always getting wrecked!!

Greetings Rich

Here is a new order for Parts for the JLG Lull 1044C Transmission and Engine Mounts. I am requesting approval to purchase a re-manufactured transmission for JLG Lull 1044C. If we were to buy a new transmission the price range is between 25K to 40K based on speaking with different vendors. So I received quotes for re-manufactured transmissions for you to review.

The breakdown new order of JLG Lull is as followed:

A.

I received two quotes for the JLG Lull Parts from the companies Caribbean Motoring and United Rentals here are the details as followed:

United Rentals **Estimate #146544652- \$11,595.66**. I have attached the invoice for you to review. The items will be available by the **Middle of June**. The mounts are in stock at this time but transmission will take some time. Items will begin shipping from Texas between (06-16-17- 06/20/17).

Caribbean Motoring **Estimate #1011- \$9,937.89**. I have attached the invoice for you to review. The items will be available by the **End of June**. Per vendor mounts are available now. If ordered from this company they have asked to send the old transmission core back to them.

B.

**United Rentals**. ETA (Mid of June) Per my discussion with vendor.

**Caribbean Motoring**. ETA (End of June) Per my discussion with vendor

C.

**United Rentals**. Item will begin shipping in the Middle of June between the dates (06/16/17 to 06/20/17) then 3-7 days to reach to Tropical Shipping per vendor.

**Caribbean Motoring**. Items will be shipping at the End of June. Charles will transport the part to Tropical Shipping.

D.

**United Rentals**. Once parts are received in the Middle of June. Items will begin to ship between the days

06/16/17 to 06/20/17. When parts begin to ship it will take 3-7 days to reach to Tropical Shipping. ETA for parts to STT is between the weeks of between weeks July 02,2017 to July 09,2017.

**Caribbean Motoring.** Once parts are received at the End of June. Once parts are receive by Charles he will deliver it to Tropical Shipping. Estimated Arrival on STT be between weeks July 02,2017 to July 09,2017.

E.

**United Rentals.** We can use either a credit card or send a wire. **I will have to provide wire instruction for vendor sometime tomorrow since the parts manger is out today.** There will be an extra charge for them to ship directly to Tropical Shipping but I haven't been able to get a straight answer on the shipping charges the but the range is between \$500 to \$750. Can only provide definite answer once parts are weighed.

**Caribbean Motoring.** We can use either a credit card or send a wire for this order. (no additional fees added). The wire instructions is attached for you to review.

F.

**United Rentals.** I wasn't able to negotiate this price down on these parts the price given is fixed from JLG Dealer.

**Caribbean Motoring.** Vendor provided us the best price available for these parts.

#### **Recommendations**

My recommendations is go with **Caribbean Motoring** based on the cheaper price even though we have to wait til the End of June. The time frames are similar to the other vendor at a cheaper price.

Regards,

Lucas
