Subject: personal assistant application

To: resume.apply.ny@gmail.com

Dear Sir or Madam,

I am writing to apply for the position of a personal assistant, as advertised on the eurabota.com website.

I am determined to connect my life with politics and become a political activist. Therefore, I am looking for the best educational options to develop my potential and achieve my goals, which is why I have chosen politics and international relations as the main field of my studies. I am in my last year of high school, which means I am graduating on 16th June 2017. I am sitting my last exam on 22nd May 2017 and I am free until my prom on 16th June and after this date.

I have been interested in global issues as well as serious matters ever since being a teenager, watching world news with undivided attention and my interest raised dramatically when I first listened to the speech called "I have a dream" presented by Martin Luther King Jr. I found it very inspiring and then other public addresses of famous politicians and activists followed. It was when I decided I wanted to give public speeches myself. I have been an active speaker in every class discussion ever since. I have also taken part in public speech competitions and debate clubs,

discussing such topics as cultural diversity, language uniqueness and even the most dreadful global issue nowadays, which is terrorism. I find it really exciting to analyze the processes happening in the contemporary world. Besides I have always been thinking over the ideas of justice, the main principles of democracy and the ways the whole political structure works.

I am a very polite and responsible person and I always take my work and studies seriously. My native language is Russian but I speak English and Latvian languages fluently and I am currently studying French. I am good at remembering new things and I always meet the deadlines.

I do believe that a person can be whoever he wants to be. Constant work, self-development, dedication and self-trust are without doubt the perfect keys to everyone's success. This is my life credo and I try not to stay in one place for too long, which is why I have been involved in a number of significant events, some of which happened to be international. For instance, I can mention "Startuppasion", where young people are given a chance to develop their business idea and even get sponsorship. I consider it one of the most important experiences in my life because due to this project I have improved my leading and problem solving skills, critical thinking and I also gained some valuable knowledge as well as understanding of how things appear, develop and change in our dynamic world.

In February 2017 I had a chance to meet the president of my country Raimonds Vējonis and follow him through the day to see how the political structure of Latvia works. I was at a press conference, where the president gave his speech and I also attended a meeting of ministers where they were discussing tax system and other themes. I really enjoyed meeting and talking to all of these people and I know this is something I am really passionate about. I enclose a photo from this day for you to see as well as my CV.

I am more than confident that I am ready and capable of devoting my whole life to our world's prosperity, which I believe can make me a truly motivated, hard-working and determined worker at your company. I do hope it will give me a great range of unique opportunities and will let me express my personality along with my strong beliefs. It will also be a priceless experience for my future career.

Thank you for considering my application

Sincerely,

Veronika Cernakova
