Subject: Updated presentation on BOEING BBJ-1 S/N [REDACTED] production number [REDACTED]

Dear Larry,

Great to hear from you . Hope you are doing well also.

As per our last conversation please find a complete specification and floorplan our late Serial number [REDACTED]

In my humble opinion [REDACTED] is the best Boeing BBJ ever built. [REDACTED] is the production number of the aircraft so as you know ,it is one of the last 30 Boeing BBJ's ever built.

We have in our possession all the original build documents and every piece of information imaginable. For sure this one is absolutely one of the nicest BBJ's we have ever handled . Some of the highlights to this exceptional aircraft are as follows :

Late S/N aircraft with 2300 hours TTSN

Recent 72 month inspection and avionics upgrade (Wifi installation)

Engines are covered under the GE ONPOINT care program (one of the few aircraft in the world)

7 Long Range Fuel tanks.....can carry 18 passengers a full 12.5 hours.

Very high quality completion done at Associated Aircraft Centre. . Very high standard VVIP Interior.

No Damage history.

Aircraft currently based in central Europe/ Dubai . **Currently in Basel Switzerland at AMAC AEROSPACE for 3 weeks having maintenance completed.**

The aircraft is aggressively priced for an immediate sale.

Larry, as the owners are basically getting fed up with the process of Selling the aircraft.....The time has come whereby they want the aircraft sold ASAP. I believe today the aircraft will be sold at a very attractive price. We just need a real Buyer with a real Offer.

Love to work with you to get [REDACTED] sold.

Best regards

Bob P.
